

Forney Animal Hospital Grand Opening July 25th, 2009!

202 E. Hwy 80
Forney, Texas 75126
972-564-1015

Forney Animal Hospital is the oldest veterinary facility in Forney, it was established in 1979. In our 30 years we have seen Forney grow from a small cotton gin community into a thriving upscale suburbia. We have endeavored to provide the best in veterinary care all along the way. Dr. Roger Wilbur purchased the clinic, from founder Dr. Steve Grubbs, in 1992 and began running day to day operations in 1998. While under his ownership the clinic grew considerably with the fast rate of growth of Forney itself. In 2007 Dr. Lucille Nix and Dr. Jeffery Pruitt purchased the practice from Dr. Wilbur and have taken the clinic to a whole new level. In their commitment to providing the highest quality veterinary care for their patients, the doctors have designed and built a brand new, state of the art facility. The new facility includes a spacious, comfortable waiting room with enough square footage to “spread out” and keep “Marmaduke” away from “Sylvester’s” personal bubble. The new surgical suite is filled with the latest in patient monitoring equipment. We handle every surgical case with the utmost of care and safety. Every surgery patient is examined, fitted with an indwelling catheter, placed on I.V. fluids and vital signs monitored continuously throughout the procedure. Also pain management is of foremost concern to the doctors and staff here at Forney Animal Hospital. We provide pre-operative, during, and post-operative pain medication to ensure your pets’ complete comfort to cope with the stress of surgery. After they awake from their procedure, all eyes can focus on their care in our new high visibility recovery room. Diagnostic imaging is very important to our doctors when treating your pets. Now imaging our patients has become much more detailed and accurate with the new Fovea Digital X-ray unit. Our exam room capacity has tripled! We now have six exam rooms to help us get our patients in and out quickly so they can go back to the serious business of wagging tails and licking faces! Speaking of space, our pet lodging has added 20 more large runs. Including 2 premium suites to place your furry loved one in the lap of luxury! The treatment area has also grown and now includes 4 treatment/wet tables. And finally, now that our staff has an actual lounge we will be able to get them out of the doctors’ office so they can relax and refresh to serve your pets even better and give the doctors a little peace and quiet!

Coming Soon – Our “old” side of the building will now be renovated to expand our grooming boarding side with a brand new retail section!

All the doctors and staff would like to warmly welcome you to come and join us for our Grand Opening – Ribbon Cutting Ceremony Saturday, July 25th, 2009 from 2p.m. to 5p.m! There will be lots of food, fun, door prizes and much, much, more!
